**MALARIA MEDICATION:** Malaria medication must be prescribed by a physician and are not available at the Lee County Health Dept.

Travelers are encouraged to check the recommended or required vaccines as soon as travel plans are made. It can take several weeks or months to complete the series of vaccinations on the [Vaccination Schedule](#). Travel vaccines are preferably given at least one month before travel. As soon as you know you will be traveling outside the US, we recommend that you make an appointment to see a nurse for travel vaccines and counseling, so call well ahead of your planned departure date.

Please bring all immunization and travel records with you. Advise the nurse of your status regarding:

- any known allergies
- previous vaccine reactions
- pregnancy or breast feeding

Appointments can be made by calling 239-461-6100. Please arrive 30 minutes prior to your scheduled appointment time to complete registration. We accept cash, check, MasterCard, VISA and Discover for payment of vaccines.

**\*Required by the CDC. All other vaccines are strongly recommended**
